

EVERY DROP IS PRECIOUS

“designed to save you money
by saving water & energy”

3 SPRAY SHOWER HEAD FITTING GUIDE with PRE-FITTED REGULATOR (water flow rate - 9 litres per minute)

Please note the shower head comes with the regulator attached. We do not recommend the use of regulators with electric or pumped showers, so if you have either an electric or pumped shower, simply take it off by unscrewing.

Thank you for purchasing the Every Drop Is Precious 3 spray shower head, we hope you will be delighted with it. Please see www.everydropisprecious.com to see our full range of water and energy saving packs and products for your home, pets, garden & business, along with useful tips and information, to help further reduce your water and energy bills.

PARTS AND CONTENTS INCLUDED IN PACK:

3 Spray Shower Head including pre-fitted water saving regulator

PREPARATION:

Remove all parts from their packaging and inspect for any transport damage prior to fitting. Make sure your shower is turned off before you begin fitting. These fitting guidelines have been prepared to help you but you must exercise due care and attention at all times. We do not accept any responsibility for damage / problems that may occur through improper fitting or use.

CLEANING:

We recommend you clean your shower head, from time to time with a damp cloth to remove any scum / lime scale build up. N.B: using abrasive chemicals may cause damage, and as such we do not recommend these are used.

TECHNICAL DATA:

The Shower Regulator (9 litres per minute water flow rate) will perform from 0.2 bar – 6.0 bar, please note however that there will be differences in flow rates.

WARRANTY:

The warranty period is 2 years against any manufacturing defects. In the unlikely event that your product(s) break and/or are faulty within the 2 year warranty period through no fault of your own, please contact us directly.

FITTING TO A SHOWER UNIT OR BATH/SHOWER MIXER:

STEP 1

Simply unscrew your existing shower head from your shower or bath shower fitting:

STEP 2

Screw on your new shower head until a tight fit.

If you cannot use or do not wish to use the regulator, simply unscrew it to remove and screw the shower head back on, to use as normal. For further help please see our videos on our website or give us a call.
