by saving water & energy”

## **PICTORIAL TO FIT THE EXPANSION TAP AERATOR KIT:** **(suitable for 12-16mm round tap spouts with or without any screw thread)**

This product is designed to attach a tap aerator to a round mixer tap, between 12 and 16mm in diameter which doesn't have any screw thread. More suited for older taps or taps which have an irregular tap end.

Next set of pictures shows you how to fit our “quick fit” tap aerator to the above expansion kit.

# EVERY DROP IS PRECIOUS

“designed to save you money  
by saving water & energy”

Simply screw the tap aerator onto the expansion kit, until tight. Screw the white hose connector into one end of your shower hose. Now, you can attach / slide the shower hose into the tap aerator.
