by saving water & energy”

ON/OFF THUMB LEVER SHOWER HEAD FITTING GUIDE, TO A SHOWER HOSE

N.B: NOT SUITABLE FOR USE WITH ELECTRIC OR PUMPED SHOWERS.

Thank you for purchasing the On/Off Thumb Lever Shower Head, we hope you will be delighted with it. Please see www.everydropisprecious.com to see our full range of water, energy & money saving packs and products for your business, home, pets, garden and car, along with useful tips and info to help further reduce your water & energy bills.

These fitting guidelines have been prepared to help you but you must exercise due care and attention at all times. We do not accept any responsibility for damage / problems that may occur through improper fitting or use.

ABOUT THIS PRODUCT:

The On/Off Shower Head has been designed for easy, less mess washing. Once fitted and the tap(s) is turned on, you simply push the lever for water to flow, and release to stop the flow. It ensures water, energy & money isn't needlessly wasted.

PARTS AND CONTENTS INCLUDED IN PACK:

1 On/Off Shower Head with pre-fitted back flow prevention device

PREPARATION:

Remove Shower Head from its packaging and inspect for any transport damage prior to fitting. Turn off your taps before fitting.

CLEANING:

From time to time clean with a damp cloth to remove any scum or limescale build up. Please do not use abrasive chemicals as they may cause damage.

WARRANTY:

Covered under warranty for 2 years against any manufacturing defects. In the unlikely event that your Shower Head should be broken / faulty within the 2 year warranty period through no fault of your own, please contact us directly.

STEP 1 of 1

Unscrew your existing shower head and screw on your new Shower Head.

TO USE: Simply turn on the tap(s) or shower and push the lever on the Shower Head to operate. You can adjust the water flow by using less pressure on the lever (if you find the pressure is too strong, then only turn the taps on half way). When you have finished using the Shower Head, **remember to turn off the taps!**

WARNING: The On/Off Shower Head cannot be used as a permanent water stop, and has only been designed to give a temporary shut off, so remember to always TURN OFF the water after use to avoid bursting the hose. Not to be used in water temperatures at 70 degrees fahrenheit and above. Please note, this shower head is not a thermostatic controller, it will only provide a temporary shut-off solution and cannot control water temperature fluctuations caused by your water heating system.
