

## Outdoor Dog Wash Shower Pack Fitting Guide to a: Kitchen/Basin Tap & Hosepipe (for WARM & Cold Water Washing)

These fitting guidelines have been prepared to help you but you must exercise due care and attention at all times. We do not accept any responsibility for damage / problems that may occur through improper fitting or use.

**ABOUT THIS PRODUCT & HOW TO USE:** The Outdoor Dog Wash Pack has been designed for easy, less mess & less stress dog washing. Once the Dog Wash Shower Head is fitted and the tap(s) is turned on, you simply push the lever for water to flow, and release to stop the flow. It ensures water isn't needlessly wasted whilst you are busy shampooing / rinsing and means you don't have to turn the tap(s) off every time you put the hose down to avoid being soaked! On 1<sup>st</sup> use, only turn the tap on slightly to determine the amount of water pressure required.

The clever "Quick Fit" device is a permanent tap aerator which ensures you have an aerated, straight, non-splash stream of water when you are using your tap. The clever housing has been designed so you can attach a hosepipe to your tap with just a quick & gentle push!

### PARTS AND CONTENTS INCLUDED IN PACK:

X1 Dog Wash Shower Head with on/off lever

X1 Hosepipe & Shower Head Attachment

X1 Hosepipe Connector

X2 Hozelock Adaptors

X1 "Quick Fit" Tap Aerator

**PREPARATION:** Remove all parts from their packaging and inspect for any transport damage prior to fitting. Turn off your tap(s) / shower before fitting.

**CLEANING:** Clean with a damp cloth to remove any scum/lime scale build up. Please do not use abrasive chemicals as they may cause damage.

**WARRANTY:** Under warranty for 2 years against any manufacturing defects. In the unlikely event that your pack contents should be broken / faulty within the warranty period through no fault of your own, please contact us directly. Do NOT leave your Dog Shower outside as it may damage the shower head and invalidate your warranty.

### HOW TO ATTACH THE DOG WASH SHOWER HEAD TO A HOSEPIPE

1. Screw the "Hozelock Attachment" onto the "Hosepipe & Shower Head Attachment" and now screw both assembled parts onto the "Dog Wash Shower Head".

2. Now insert the complete shower head on to your hosepipe.

### HOW TO ATTACH THE QUICK FIT PERMANENT TAP AERATOR TO A KITCHEN/BASIN TAP (24 & 22mm, male & female)

1. Unscrew your tap regulator (found at the end of tap spout, you may need to use a pair of pliers if limescaled). Comes with a metal adaptor to fit BOTH male external tap spouts AND also female internal tap spouts, like the photo.

2. Screw the new Quick Fit Aerator into the tap spout, make sure the rubber washer is in place 1<sup>st</sup>, until tight.

3. The Quick Fit aerator will produce a straight non splash & perfect water stream.
