BIDET TOILET
SEAT WITH A
CHOICE OF
COLD OR WARM
WATER

WHAT IS LAVALINO?

Very simply, it's a toilet seat with a built in bidet, so you can wash with water after you've used the loo! After all you wouldn't wash your hands with just toilet paper!

Suitable for residential properties and businesses including offices, hotels, care homes, hospitals - anywhere where there's a toilet!

SPACE SAVER

Brilliant space saver, ideal for smaller bathrooms as no separate bidet is required!

EASY TO CLEAN

Easy to remove seat and lid for regular cleaning. Easy to remove retractable wand for easy clean of any limescale build up.

HYGIENIC

For both every day personal hygiene use but also to help alleviate medical conditions such as IBS, pregnancy and post natal, menstrual cycles, UTI's, incontinence and haemorrhoids.

RETRO-FIT/FUTURE PROOF

The Lavalino Toilet Bidet Seat can be retro-fitted to your existing toilet pan and water supply so offers flexibility for future bathroom changes.

FEELING OF
INSTANT
CLEANLINESS

KEY FEATURES

QUICK AND EASY TO FIT

Easy for tradesmen and competent DIY'ers to fit. No additional water feed or electricity supply required. Connections for a retro-fit available upon request.

HIGH QUALITY GERMAN MANUFACTURED

The seat and lid is white in colour, made of ultra strong Duroplast, is scratchproof, heat resistant and doesn't fade in sunlight. Also features a slow to close mechanism.

WATER EFFICIENT

Only uses a small amount of additional water (approx. 1.9 litres per minute at 1 bar of pressure) which is minimal in comparison to what you would use if showering or using a douche.

EASY TO USE

Simply turn the nozzle on the side of the seat for the water wand to extend out and wash you. The more you twist the more water is released and pressure increases.

Turn the nozzle back to retract the wand and to stop the water flow once you have finished washing.

SIMPLE TECHNOLOGY

No complicated electronic components or remotes, simply powered by water pressure alone. LED night light battery operated, which only works in the dark by sound and motion.

COLD AND WARM WATER OPTIONS

Cold or fresh water washing as standard. For warm water washing, the seat can be connected to a thermostatic mixer if fitted separately and a hot water supply is available.

LAVALINO

TOILET BIDET SEAT WITH LED NIGHT LIGHT

Over 70% of Japanese households and an increasing part of Asia and the USA have a toilet with a bidet function.

They find the experience hygienic and appreciate the feeling of freshness provided by the bidet function.

Whilst many Europeans are familiar with bidets there's a belief that these have to be separate units, this means that few have the space to install them or the inclination to use them.

In addition, the European market is subject to strict regulations concerning the treatment of water (see more info below) and many of the Japanese / US models do not comply. To counter this, we have developed a cost effective but durable toilet seat with a built in bidet function specifically for the European / UK market. All the benefits of a bidet easily incorporated into your existing toilet!

The Lavalino toilet bidet seat can be easily retro-fitted to your existing toilet pan. Water pipe connections available upon request.

Manufactured in Germany (WRAS approval pending for the UK market) so you can be assured you're receiving quality goods at an affordable price.
