RRP:	£600 inc VAT

## KEY FEATURES

- Integrated toilet bidet seat with cold water connection – no separate water supply required, taken from cistern. For warm water washing, can be connected to a thermostatic mixer if fitted separately and a hot water supply is available.
- Easy to use, turn the nozzle on the side of the seat to wash with water and turn back to retract when finished!
- High quality German manufactured - scratchproof, heat resistant, doesn't fade in sunlight.
- Easy to remove seat and lid for regular cleaning
- Slow to close toilet seat and lid
- Easy to fit to existing round or oval toilet pans
- Can be fitted by a competent DIY person
- Excellent value for money
- No electricity required and batteries only required for the LED light.
- Works off existing water supply
- Easy to remove retractable wand for easy clean of any limescale build up
